

## A REFUGEE-LED RESPONSE TO REAL COMMUNITY NEEDS

Refugee Thrive Initiative (RTI) is a refugee-led, community-based organisation in Nairobi, Kenya, founded by refugees who understand first-hand the barriers to education, digital access, economic empowerment, and emotional wellbeing that displaced communities face. RTI is currently completing formal CBO/NGO registration and is actively seeking donors, mentors, and institutional partners to help formalize its structure and scale its impact.

### OUR MISSION

To equip refugees in Nairobi with education support, digital skills, economic empowerment opportunities, and mental health support that enable them to thrive with dignity and independence.

### OUR VISION

A future where every refugee — regardless of status — has equal access to opportunity, wellbeing, and a thriving, self-reliant life within their host community.
